Brief characterisation

GastroSpiegel is a professional journal that provides brief and concise information on current industry and product innovations for specialist retailers and planners of canteen kitchen and catering supplies. In this context, opinions and trends rank foremost. The target group of specialist retailers and planners has its say here. Furthermore, the views of industry partners from consulting firms and other branches of the industry are taken into consideration. The topic of personnel, training and development as well as the field of economic analysis also play an important role in the news coverage. GastroSpiegel observes marketing and management activities and introduces corporate product innovations. Last but not least, general topics on the out-of-home market are also helpful aspects of critical market presentation. A main content area for readers is the section „Analysis & Opinions“, which is meant to shed light on the sector from a certain angle.

The exclusivity of editorial contributions is particularly important. In-house research, interviews, analyses and critical commentaries by competent editorial staff make the magazine indispensable for readers. Information based on press releases is examined, edited and presented for the benefit of the readers. To sum it up, GastroSpiegel provides optimal media support for the entire industry.
